

Resource Bingo!

Instructions

Preparation Instructions

1. Print out bingo cards (Do not print double sided!)
2. Print and cut out each of the calling cards, folding and sticking at the central dotted line. (Do not print double sided)
3. Source plastic bottle tops or counters for players (minimum of 64 counters for four players)

Gameplay Instructions

1. Hand a bingo sheet to each player and allocate one person to call out the cards.
2. Shuffle and stack the calling cards face down in a box or basket, so other players cannot see the cards.
3. The bingo caller picks a card from the top of the pile, identifies the item/symbol on the card and holds it up for all players to see
4. Players place counters on their card if they have that item or logo.
5. The first person to fill their card and shout "RESOURCE BINGO", wins.

Optional Gameplay Extension:

The game can be extended by asking the players whether the item called out can be recycled, and where it should be taken or what the symbol is and what it means. This information is on the back of the card.

N.B. Recycling varies in different areas of the country. Check 'Recycle Now Locator': <https://www.recyclenow.com/local-recycling> or alternatively check your local authority guidelines for individual items.

Glossary/ Information

HWRC: Household Waste Recycling Centre is where you can take items that aren't collected from home. Also known as Household Resource Recycling Centre (HRRC), Civic Amenity site (CA site) or "Tip".

Food Waste: Items of food such as scrapings, peelings, meat (raw or cooked) and tea bags.

Garden Waste: Items from the garden including lawn clippings, weeds, flowers, twigs and small branches.

WEEE: Waste Electrical and Electronic Equipment such as large home appliances including washing machines and fridges etc.

Small Electricals: Small electrical items such as hair dryers, mobile phones, stereos, batteries and leads.

Mixed/ Composite Packing Materials: Items which have multiple layers of different materials used together. Common items include foil-based pouch drinks and Tetra Pak's, which often use a mix of foil, plastic and sometimes cardboard to produce packaging.

What you will need:

- Bingo Sheets
- Bingo Calling Cards
- Bottle tops (or counters)
- Basket / Box to hold cards
- 4 – 10 Players

Paper and Cardboard: Any paper-based object including cardboard boxes and packaging, letters, magazines, envelopes and junk mail.

Plastics: Any item or container made from a variety of plastic types and colours, including cleaning products and food containers. Other types of plastic such as children's toys and outdoor furniture, should be reused where possible, or placed in a general waste bin at a Household Waste Recycling Centre (HWRC, HRRRC, CA Site, or Tip).

Metals: Any item made from Steel, Aluminium or other metal. Items include, cooking foil, aerosol cans, food cans and scrap metals such as old tools and coins.

Textiles: Materials made from manmade or natural fibres (cotton, polyester etc), often clothes or household items such as towels, curtains or bedding.

Bulky: Large household items such as chairs, tables and beds/ mattresses.

Glass: Items made from clear or coloured glass, including bottles and jars. Please note that glasses and cooking equipment such as Pyrex, are not the same type of glass, and should be reused if possible, or disposed of separately either in your general waste bin at home, or at a Household Waste Recycling Centre.

Household recycling: Anything you put out for collection from your house.

Local Authority Bring site: Areas in car parks, and on streets, at which local authorities or third parties provide containers (banks) to the public to deposit recyclable materials.

Upcycle: Upcycling, also known as creative reuse, is the process of transforming used unwanted products into something new or improved.
