

Stop the Bin Lorry!

Instructions

Aim of the Game:

The aim of the game is to be able to find an answer to each question within the time limit. You can adapt the game depending on the age of the audience, the recommended time limit is between 30 seconds and 1 minute.

Before you start hand each participant a stop the bus worksheet, then randomly generate a letter of the alphabet. The participants then must answer each question with something beginning with that letter.

For example:

If the letter chosen is P you then must answer each question beginning your answer with the letter P. Name something not recyclable – Polystyrene. Name something that can be recycled – plastic bottle and so on.

If the letter P comes up in the game, the participants will need to come up with an alternative answer to that listed as an example.

Winning:

The first person to complete their page first shouts "STOP THE BIN LORRY!". Once this is shouted all players must put their pens down. The person who has the most correct answers win.

Resources required

- Stopwatch
- Stop the bus game template
- Pen or pencil
